

**CAMEROON BAPTIST CONVENTION**  
**HEALTH SERVICES**  
**Director of Health Services**  
**P.O. BOX 1 Bamenda, North West Region**

Ref. CBC/DHS-L/21/1309

March 2, 2021

## **PUBLIC NOTICE**

The Director of the Cameroon Baptist Convention (CBC) Health Services wishes to inform the general public that on Monday March 1, 2021 at about 11:40 a.m. a building which served as a Rest House for visitors within the premises of the Life Abundant Primary Healthcare (LAP) Centre situated at Bamkika'ai, Kumbo, burst into flames as a result of gunshots coming from above the Centre. Neighbors and well-wishers joined residents of the Centre to put out the fire before it could cross to other buildings close by. Although the entire building was razed, no human casualties were recorded.

The Life Abundant Primary Healthcare (LAP) Program is a Community-based healthcare Department of the CBC Health Services, established in 1980 by North American Baptist (NAB) Missionaries following observations and findings during outreach activities. The NAB Missionaries during such visits screened and treated diseases such as Malaria, Pneumonia and Water borne diseases. Many LAP Posts have grown into Health Centres and Hospitals throughout the country, screening and treating a wider range of illnesses. The work of the LAP Program over the years has been providing healthcare to hard-to-reach, remote, underserved and poor communities across Cameroon, setting up basic Healthcare structures and Strengthening Communities to manage them.
