No part of this report may be reproduced in any form or by any electronic or mechanical means, including information storage and retrieval systems, without the permission in writing from the Director of the CBC Health Services.

FOREWORD

On behalf of the Management Team of the CBC Health Services, I am pleased to present our 2024 Annual Report.

2024 has been another exciting and productive year marked by transitions, challenges, and significant achievements. Our staff remained committed to the mission statement, while our partners, stakeholders and clients continue to trust and collaborate with us in promoting and advancing our Mission.

Despite hurdles such as the socio-political crisis affecting some of our facilities, economic hardship, and increasing demand for specialized healthcare, our services have thrived. Across our Health Facilities, Programs, and Training Institutions, millions of lives have been impacted. We are very much encouraged by the increasing support from partners and stakeholders. The fruits of your continued partnership have been the development of new projects and the expansion of several specialized services.

It is important to recognize that while service uptake saw a slight increase of 3.9% with Outpatient Service uptake, we continue to struggle with meeting our financial commitments. The impacts of the ongoing Socio-political crisis in the English-speak-ing Regions, home to over 40% of our facilities, coupled with the national economic downturn, has deeply affected our financial sustainability and worsening our financial situation. However, I sincerely commend you, our staff, for your understanding, resilience, and loyalty to this Mission, upholding it under very difficult conditions. Equally, we cannot underestimate the financial, material and technical support provided by our partners within this period.

It is important for me to highlight some significant partnerships we had in 2024 with focus on infrastructural development, to improve access specialized services at differ-ent levels. There is the partnership with the African Children's Hospital Fund (ACF) led by Dr. Daniel Gwan Nulla, for the construction of a State-of-the-Art Children's Hospital with construction works to commence in 2025. The Oncology Center of Excellence Project in Mbingo Baptist Hospital is ongoing, and specialists are being trained to ensure a facility that meets National and Sub-regional Oncology needs. The Rehabilitation Training Center of Excellence in Ombe funded by the AFAS Founda-tion and the Liliane Foundation has equally been completed. Thanks to the mobiliza-tion and support from local communities, we are improving on the state of the infra-structure for Ndu Baptist Hospital, Finkwi Baptist Health Center and Voundou Baptist Health Center.

In 2025 we will focus on enhancing our healthcare services and ensuring financial sustainability. We aim to improve service uptake through targeted outreach and com-munity engagement, strengthen our specialized services, optimize our workforce with appropriate staffing and capacity building, and enhance our Central Pharmacy's capac-ity to ensure a consistent supply of pharmaceuticals. Additionally, we plan to improve our infrastructure through periodic evaluations and maintenance, address debts with repayment strategies, and strengthen partnerships to raise funds for development proj-ects.

Together, these efforts will help us continue to provide quality healthcare and support our Mission to promote health and improve lives.

CBCHS Prides in Quality Health Services to ALL

About the CBCHS

VISION

Quality
Care to All

*Our clients have
continuously expressed
satisfaction with the
compassionate and
professional care we offer,
making us their trusted
choice.*

Brief History

The Cameroon Baptist Convention Health Services (CBCHS) is a Non-profit, Faith-based, Humanitarian and Inclusive Organization with over 80 years of existence, offering holistic care to Cameroon. The CBC Health Services began operations in Cameroon in 1936 through the activities of the North American Baptist Conference (NABC) and grew steadily to an indigenous health organization in 1975.

The CBCHS provides both facility and community-based services within a network of over 96 health facilities with 15 Hospitals, 27 Integrated Health Centers and 54 Primary Health Centers in both Urban and Rural settings spread across seven of Cameroon's ten Regions. The CBCHS runs a portfolio of 13 Public Health, Community Development and Social Programs, complementing our facility-based care package, together with the Training Schools for Health Personnel, Residency Programs in General Surgery and Internal Medicine and a Pharmaceutical Production, Procurement and Distribution unit.

MISION

The Cameroon Baptist Convention Health Services seeks to assist in the provision of care to all who need it as an expression of Christian love and as a means of witness, in order that they might be brought to God through Jesus Christ. Thus, the Health Services shall provide exemplary health care with genuine compassion, and with overriding purpose of evangelical witness.

Missionaries and International Visitors

We are privileged to welcome yearly, a vibrant community of Missionaries and International visitors. Through their expertise, passion, and dedication, they contribute significantly in advancing our Mission of providing high-quality health-care to all. We are immensely grateful for your contributions and the diverse perspectives you bring to our team.

We are encouraged that you continue sharing your knowledge and skills, as together, we build a healthier future for communities around the world. Your commitment and hard work inspire us every day, and we look forward to achieving even greater heights with your ongoing support.

Thank you for being an essential part of our journey.

Our Uptake at a Glance

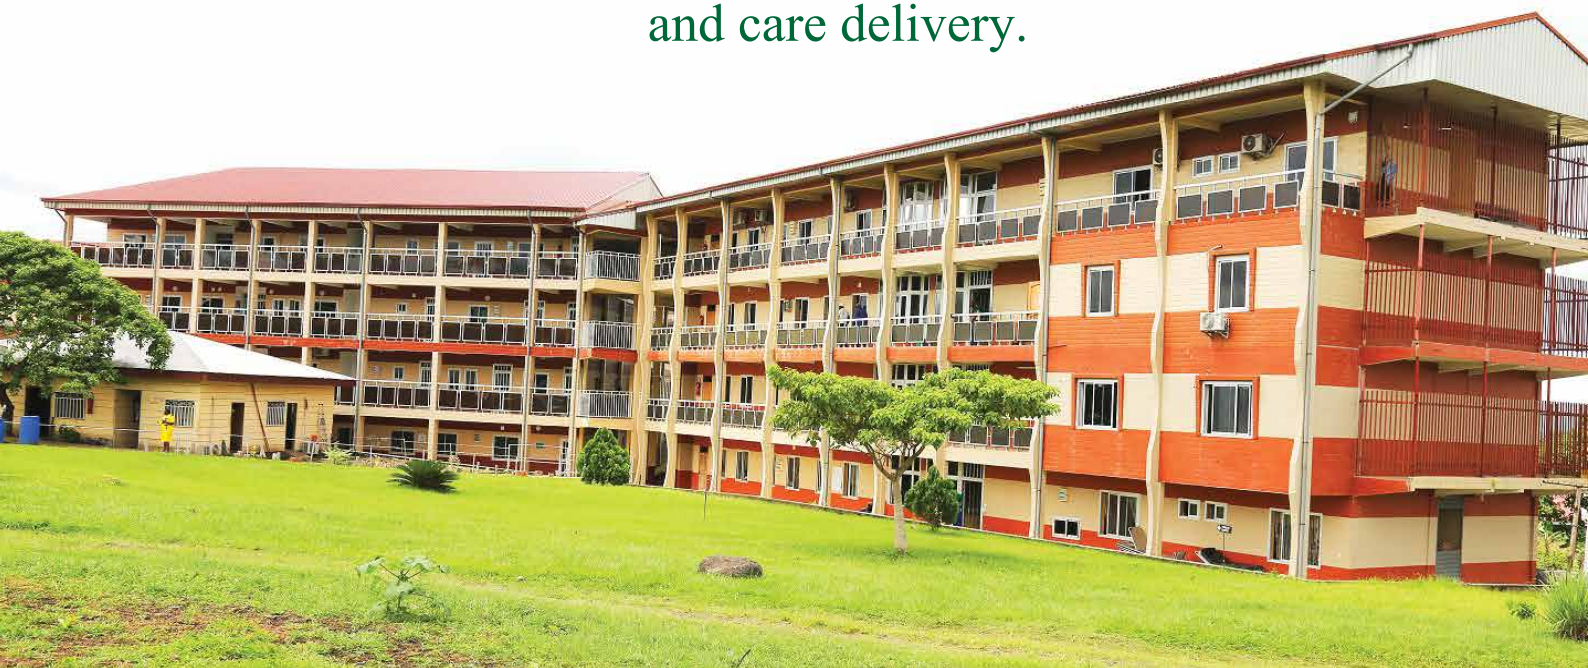

2024 Performance

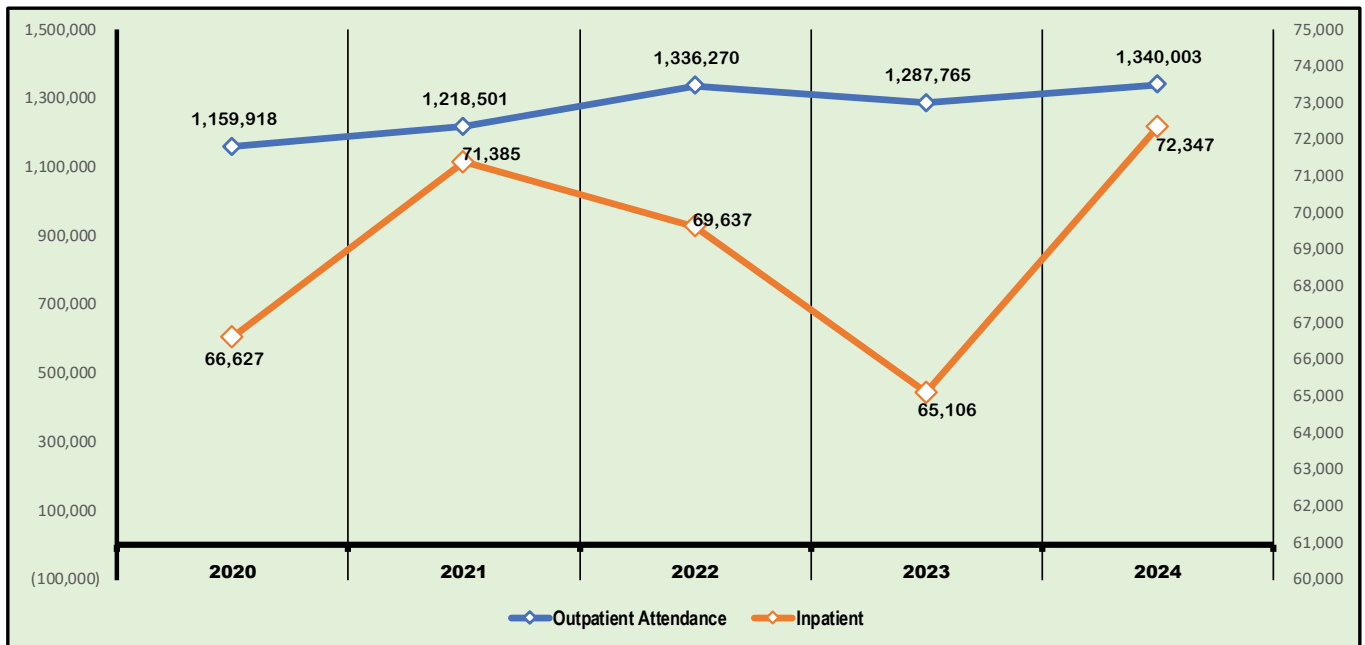

Facility Based Performance

Our health facilities offer a comprehensive range of general and specialized services, tailored to meet the unique health needs of Cameroon. In 2024, we observed an improvement in our services, with Outpatient attendance rising by 3.9% and Inpatient admissions increasing by 0.4%, reflecting steady progress in patient engagement and care delivery.

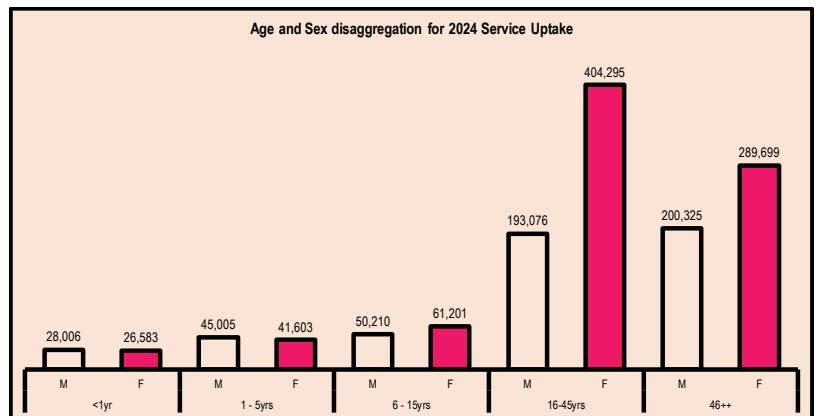

5 Years Trend of Service Uptake

Indicator	2020	2021	2022	2023	2024
Outpatient	1,159,918	1,218,501	1,336,270	1,287,765	1,340,003
Inpatient	66,627	71,385	69,637	65,106	72,347

Our Service Expansion Strategy

Service Provision Model

To create a competitive edge through segmentation, focusing on geography, demography, incidence, and income with each facility offering designated specialty services, alongside general consultation for triage and referral, ensuring top-quality care and a robust referral network.

Reaching Hard-to-Reach Areas:

Recognizing the critical need for reliable, quality, and affordable healthcare in remote and under-served regions, we are committed to developing and expanding customized service packages. These tailored solutions aim to enhance access to healthcare by addressing unique local needs and overcoming geographical barriers. By implementing mobile clinics, telemedicine services, and community health outreach programs, we strive to bring essential medical care to the doorsteps of those who need it most.

Performance of Public Health, Community Development and Social Programs

Public Health, Social and Development Programs remain a cornerstone of the CBC Health Services Mission to provide holistic care to all those in need reaching the wider community. Through our programs, we have been able to address the social determinants of health and provide comprehensive support to individuals and communities. As of 2024, CBC Health Services runs 13 Programs with many having multiple projects. CBC Health Services Programs continue to grow and expand their portfolio to respond to different public health related problems.

Through our programs, we empower communities and individuals through comprehensive, innovative, and sustainable public health, social, and development programs. We strive to improve health outcomes, enhance quality of life, and foster socio-economic growth by delivering accessible and equitable services. Through collaboration, education, and advocacy, we are committed to addressing the root causes of health disparities and promoting well-being for all.

Strategic Expansion Plan

The CBC Health Services Central Pharmacy (CP) is embarking on a transformative Pharmaceutical Expansion Plan to become a high-performing pharmaceutical system. This ambitious initiative aims to enhance production, procurement, and distribution to meet the needs of CBC Health Services facilities, as well as the health system in Cameroon and the Sub Region.

Vision

We aim to revolutionize the Central Pharmacy, ensuring reliable access to high-quality pharmaceuticals to serve our facilities and also contribute to the overall health and well-being of communities in Cameroon and the Sub Region.

Key Goals

- **Automated Production:** Investing in state-of-the-art automation for production lines including Infusion Fluids, Topical Liquids, Oral

Liquids, Solid and Liquid Sanitary Products, Drug Tableting, Mineral Water, and Capsule Production.

- **GMP Compliance:** Constructing facilities compliant with Current Good Manufacturing Practices to ensure top-quality pharmaceutical products.
- **Optimized Resources:** Streamlining processes to boost efficiency, reduce costs, and increase output.
- **Enhanced Distribution:** Strengthening the procurement and distribution network for timely delivery of pharmaceutical products.
- **Capacity Building:** Developing skilled pharmacy personnel to maintain operational excellence.

Partner with Us

Join us in this transformative journey to build a healthier future. Your support and partnership can have a significant impact in advancing healthcare delivery and achieving sustainable development in our region.

Current Out Patient Department (OPD) Block under construction funded by UNDP

Financial Performance

We continue to suffer from the effects of the 7 years socio-political crisis which has affected the English-speaking Regions hosting over 40% of CBC Health Services facilities. In addition to this, the economic crisis in the country has resulted in

hardship and a reduction in out-of-pocket expenditure for health. In the mist of this, the departments continue to struggle to meet up with her financial commitments including acquisition of drugs and consumables, taxes and salaries.

In line with our mission statement of providing quality care to all, over 5% of our annual income covers unpaid bills and subsidizes healthcare for poor and vulnerable patients.

Staffing Capacity

Our team of over 6000 dedicated professionals are the heartbeat of our organization. Their unwavering commitment, resilience, and exceptional quality are fundamental to realizing our Mission of providing quality healthcare to all. Each staff member brings a unique blend of skills and passion, creating a cohesive force that drives our Vision forward.

Through their tireless dedication and unwavering support, our team continues to inspire and achieve excellence in every facet of our service. It is this collective strength and determination that empower us to make a lasting impact on the communities we serve.

Challenges

1. The Socio-political Crisis in Cameroon

The ongoing crisis has led to significant instability in the Northwest and Southwest Regions. This conflict has resulted in widespread violence, displacement of populations, and disruption of essential services. Maintaining service delivery and ensuring the safety of our staff and patients is becoming very challenging. This has directly increased the cost of operations of operations while reducing our income as most patients in these regions cannot afford the cost of health care with many of our clients not being able to pay their bills.

2. General Economic Hardship

The widespread economic hardship significantly impacted the ability of the population to afford healthcare services. Rising inflation, stagnating wages, and overall financial instability forced many households to prioritize basic survival needs over medical care, leading to delayed treatments and worsening health conditions. The strain on family incomes made it increasingly difficult for patients to cover hospital bills, purchase medications, or access specialized services.

3. Limited Human Resources

The CBCHS continues to face challenges in recruiting highly specialized medical professionals essential for many facilities. While the demand for specialists remains high, securing qualified person-

nel has been difficult due to their expectations of substantial pay packages.

4. Infrastructural Limitations

Several of our facilities lacked adequate workspace and equipment to accommodate expanding services, including new programs. Some of our facilities operated in rented structures adapted to provide care, which makes service delivery challenging. The need for improved infrastructure is evident across many of our facilities but we are currently limited by finances.

5. Drug Availability Issues

We continue to struggle with shortages of pharmaceutical products and supplies. Drug shortages severely impact patient care, especially for the poor, who often cannot afford alternatives.

6. Healthcare Accessibility

Providing healthcare services to remote and underserved communities remains one of the most pressing challenges for the CBCHS. Many of these areas suffer from poor infrastructure, limited transportation, and geographical barriers that cut off populations from essential medical care. Reaching these communities often requires navigating difficult terrain, enduring harsh conditions, and mobilizing specialized outreach efforts.

CBCHS Resource Gatherers Accessing Communities with Difficult Terrain

Looking Forward

Our Strategic Development Goal

To build a health system that provides high value health and social services via service and price differentiation, based on client-expectations, and which guarantees a controlled and sustained growth.

As we look ahead, we remain unwavering in our commitment to innovation, resilience, and excellence, so healthcare is accessible to all.

Our focus in the coming years is to;

- Improve the uptake of services within our different facilities by investing in demand generation strategies.
- Strengthening the capacity of specialized services and increasing access, targeting fast growing Health Centers taking into consideration the needs of the different communities.
- Become the leading primary health care and provider of community health services in Cameroon (in terms of geographic coverage, standards, inclusiveness and sustainability).
- Optimize our workforce and ensure appropriate allocation across all facilities while fostering a culture of accountability and promoting a strong sense of ownership and institutional responsibility.
- Enhance the capacity of the Central Pharmacy to meet up with the pharmaceutical supplies and consumables to ensure smooth functioning of the facilities and service provision.
- Leverage and strengthen relationships with new and existing partners to raise funding to realize huge infrastructural development and service expansion projects

Key Areas for Potential Partnerships and Collaboration

The CBC Health Services dedicated to advancing healthcare through innovative and impactful projects that address the needs of our communities. Our ongoing initiatives are a testament to our commitment to quality care, resilience, and sustainable

development. Here are some of our major projects currently underway:

1. **Community Health Outreach Programs:**

Expanding our reach to underserved areas, providing essential healthcare services, and promoting health education and awareness.

2. **Healthcare Infrastructure and Equipment:**

Upgrading health facilities and equipment to create a safe and welcoming environment for patients and healthcare professionals alike ensuring that our infrastructure and equipment meet universally acceptable standards and service needs for purposes of inclusion, functionality and quality operations at all times.

3. **Training and Capacity Building:** Investing in the professional development of our healthcare workers through continuous training and education programs, empowering them with the skills and knowledge needed to excel.

4. **Pharmaceutical Production and Distribution:**

Enhancing the local production and distribution of essential medicines to ensure a reliable and sustainable supply of high-quality affordable pharmaceuticals.

5. **Development and Implementation of Key Public Health Programs:** Targeting rural communities to enhance access to quality services. These programs focus on preventive care, health education, and addressing pressing health issues.

Join Us in Making a Difference

We believe that collaborative efforts are key to achieving our Vision of a healthier future for all. We invite you to partner with us in these transformative projects. Your partnership and support will significantly impact, enabling us to reach more people, enhance our services, and drive positive change in our communities.

Together, we can overcome challenges and create lasting solutions that benefit everyone. We welcome the opportunity to discuss potential partnerships and explore how your involvement can contribute to our shared goals.

Key Strategic Projects

The Oncology Center of Excellence

The Bunker for the Oncology Center of Excellence Under Construction

We are investing in the Construction of an Oncology Center of Excellence to provide comprehensive, cutting-edge cancer care and research that meets the highest National and Subregional standards. Our desire is to enhance access to affordable Cancer treatment through state-of-the-art treatment, innovative research, and compassionate care. We aim to be a beacon of hope and healing, offering accessible and equitable oncology services to all, and fostering a collaborative environment for medical professionals, patients, and the community in Cameroon.

The Children's Hospital Project

The CBC Health Services (CBCHS) is set to embark on an ambitious project with the establishment of a state-of-the-art pediatric hospital, a first-of-its-kind facility in Cameroon and the Central Africa Sub-region. This initiative is spearheaded by the African Children's Healthcare Fund, a US-based organization, led by Cameroonian-born Cardiothoracic Surgeon, Dr. Daniel Gwan-Nulla.

Dr. Gwan-Nulla, along with a team of experts, visited Cameroon in February and November 2024 to evaluate potential sites for the hospital within the CBCHS. Their mission is driven by the alarming rates of infant mortality in Sub-Saharan Africa, with the vision to provide children in Cameroon and across Africa with healthcare services comparable to those in developed countries.

The proposed pediatric hospital will be a one-stop-shop for comprehensive child healthcare services, eliminating the need for referrals to other facilities. This project will enhance the quality of care, operational efficiency, access to technology and medication, innovation, and sustainability within the CBCHS.

The CBC Health Services has been chosen due to its exemplary record of providing quality healthcare in Cameroon. The hospital will serve as a beacon of hope, ensuring that children receive the specialized care they need to survive and thrive.

With support from international partners, including architectural and engineering experts, the CBCHS is

poised to make a significant impact on child health-care. The commitment and dedication of Dr. Gwan-Nulla and his team reflect their resolve to change the narrative of healthcare in Africa.

Children's Hospital Main Entrance

Impact Stories

Rowan's Journey with Disability and Liliane Foundation's Support

Born on December 12, 2000, in Yaounde, Cameroon, I faced significant challenges due to rheumatoid arthritis, which made me unable to sit, stand, or walk for long periods. Thanks to support from the Liliane Foundation through the EDID Program, I underwent surgeries to release contractures in my knees and hands, received physical therapy, and was provided with financial assistance for my education.

Unveiling the Truth: Baby Abigail's Journey to Health and Hope

Baby Abigail, 8 months old, was brought to Rev. Kembung Joseph for prayers as her family believed she was bewitched. Drawing on his experience with the humanitarian response team, Rev. Joseph recognized that Abigail was malnourished. He counseled the family and coordinated with the CBCHS CERF team to get Abigail to the hospital despite initial resistance. Once treated, Abigail's health improved significantly within two weeks, thanks to proper nutrition and Rev. Joseph's dedicated support.

From Misunderstanding to Miracles: Useni's Journey to Health

Useni, a twin from a traditional community, was believed to possess "powers" affecting his growth. When he couldn't walk or creep at age two, his step-mother and father sought help. During a door-to-door screening in Nforia, a Community Health Worker diagnosed Useni with severe acute malnutrition using a MUAC tape. After much counseling, the parents agreed to treatment despite initial skepticism. Within two weeks, Useni showed significant improvement, and in six weeks, his weight increased from 8kg to 9.9kg. He could stand, walk, and play. His father's misconception was replaced with gratitude, and he now advocates for other children, promising to refer to similar cases in his community.

Nathan's Disability and Liliane Foundation's Intervention

Nathan Ngoumsop, overcame severe vision impairment due to developmental cataracts with the support of the Liliane Foundation and Etoug-Ebe Baptist Hospital. His surgery, partially funded by the Foundation, restored his vision.

Today he enjoys playing with his siblings and friends, watching TV, and attending birthday parties, showing his integration into the community. His story highlights the transformative impact of timely medical intervention, community awareness, and family resilience, offering hope for a brighter future for children with disabilities.

Anelson's Disability and Liliane Foundation's Intervention

Born on April 21, 2014, in Bafoussam, Cameroon, Anelson was diagnosed with cerebral palsy, hindering his ability to walk. The Liliane Foundation, through the CBCHS CBR (SEEPD) program, provided essential support, including counseling, mobility aids, and school fees, transforming his life. This intervention highlights the power of timely support and community awareness in improving the lives of children with disabilities, paving the way for a brighter future for Anelson.

Best Practices in Clubfoot Care in Cameroon: The Inspirational Journey of Chia Samuel

Chia Samuel, a 5-year-old from Kumba, Cameroon, is a shining example of successful clubfoot treatment. Born to a single mother and raised by his determined grandmother, Samuel faced challenges in accessing consistent treatment. After initial setbacks, he underwent successful surgery at Baptist Hospital Mutengene in October 2024, supported by Hope and Heal-

ing International. Today, Samuel eagerly anticipates starting school, and his grandmother expresses heartfelt gratitude to the organizations that transformed his life, underscoring the importance of dedicated care and support in achieving positive outcomes for Clubfoot treatment in Cameroon.

Public-Private Partnership for Improving Access to Inclusive Health Care

Nkwen District Hospital in Bamenda, Cameroon over the years, faced significant challenges in providing accessible health care, especially for people with disabilities. Learning from the CBC Health Services inclusive health care model and with support from CBM, the hospital has successfully piloted inclusive health care service delivery. The hospital, in cooperation with the Bamenda III Council, also implemented a 50% bill exoneration for disabled patients.

Our clients' overwhelming positive feedback reaffirms our commitment to excellence and dedication in promoting health and well-being.

Top Stories of the Year

Top Stories of the Year

CBC's Partnership with the U.S. Government

H.E. Christopher John Lamora, the U.S. Ambassador to Cameroon, emphasized the successful collaboration between the Cameroon Baptist Convention (CBC) Health Services and the U.S. Government during his visit to Nkwen Baptist Hospital in Bamen-da on January 24, 2024. He praised the CBC for their grassroots approach to healthcare, especially in HIV treatment and prevention, and noted that the CBC chose to work with the U.S. Government.

Pioneering Pediatric Hospital to Transform Child Healthcare in Cameroon

In 2024, Dr. Dan Gwan-Nulla, a U.S.-based Cameroonian cardiothoracic surgeon, announced plans to build a state-of-the-art pediatric hospital in Cameroon. From February 28 to March 1, 2024, he and a team of experts scouted locations in Mbingo Baptist Hospital and Baptist Hospital Mutengene. Motivated by high infant mortality rates, the hospital aims to provide comprehensive care for children without the need for referrals. "Children were not getting the kind of care they should," Dr. Gwan-Nulla emphasized. The initiative, supported by the African Children's Healthcare Fund, is set to revolutionize child healthcare in Cameroon and the Central Africa sub-region.

As follow-up to this plan, Dr. Gwan Nulla and a team of ten other experts in diverse fields of architecture, engineering, medicine and fundraising among others paid another visit to Cameroon from October 26, 2024 to November 1, 2024. This visit was concluded with a stakeholders meeting bringing key leaders of the CBC during which the vision of a state-of-the-art Children Hospital was presented and received with much appreciation from the stakeholders.

Efficient Data Management and Evidence-Based Programming, Strengthening CBC Health Services

In 2024, CBC Health Services emphasized the importance of data management through workshops, including one from February 1-2 to review 2023 reports and another from June 26-27 for PMEL zonal coordinators to harmonize their work and strategize. The Director of Health Services, Mr. Ngum Samuel, highlighted meticulous data collection and analysis

which are essential in enhancing service delivery and evidence-based programming within the CBC Health Services.

CBCHS Project Staff Conclude Enlightening Visit to Rwanda

Staff from the CBC Health Services' disability empowerment program embarked on a weeklong learning and exchange visit to Rwanda from February 19, 2024. The team visited four districts to learn about livelihood projects and inclusion strategies for people with disabilities. "We were impressed by the collective power used to overcome barriers," said SEEPD Program Manager Awa Jacques Chirac. The visit, funded by CBM, included meetings with Village Savings and Loans Associations, vocational training youths, and the Rwandan National Council of People with Disabilities (NCPD).

Goodbye to Electricity and Water Crises at Ngoun-so Baptist Hospital

The collaboration between CBC Health Services and Hope and Healing International led to the inauguration of a 57.6 kilowatt solar power plant and a 15 cubic meter water system at Ngounso Baptist Hospital on March 20. This donation addressed the hospital's acute electricity and water shortages. "This donation is a jewel for the hospital," praised Prof. Tih Pius Muffih, Director of CBCHS. The entire Ngounso community now benefits from free water access. New X-ray equipment was also dedicated alongside these systems.

Maternal and Child Health a Priority at Ndu Baptist Health Center

Ndu Baptist Health Center, supported by Drs. Odilia and Elias Bongmba and their partners, initiated the construction of a new maternity block on March 19. The goal is to eradicate maternal and child mortality. "Success in life begins at birth," emphasized Dr. Odilia Bongmba. This new block will provide essential infrastructure and equipment to improve maternal care. The project, led by Prof. Tih Pius Muffih, aims to elevate Ndu Baptist Health Center to a full-fledged hospital.

CBC Health Services Leaders Pledge Growth under New Leadership

CBC Health Services leaders dedicated themselves to growth and adaptation under the new Director of Health Services, Mr. Ngum Samuel. From May 22-24, 2024, strategic meetings were held in Yaoundé to discuss sustainability, quality improvement, human resource development, and financial strength. Mr. Ngum emphasized, “We cannot reinvent the wheel when it has been proven to work.” The meetings focused on enhancing drug availability, reviewing goals and budgets, and managing staff postings and transfers.

CBM Cameroon Office Pledges Ongoing Support for SEEPD Program

In 2024, the Christian Blind Mission (CBM) reaffirmed its commitment to funding the SEEPD Program under the CBC Health Services. CBM's Country team conducted evaluation and monitoring visits in the Northwest Region of Cameroon, from January to March 2024. CBM Country Director Fon Juluis announced continuous funding for specific projects until 2027, including a new three-year funding for the Clubfoot Care project starting January

2024. “It was necessary to prepare the program team on how CBM is approaching the strategy 2030,” Fon emphasized.

Ngum Samuel Inducted as New CBC Director of Health Services

Mr. Ngum Samuel, 48, was inducted as the new Director of Health Services (DHS) for the CBC. The ceremony took place on July 27 at Nkwen Baptist Church, overseen by CBC Executive President Rev. Dr. Nditemeh Charlemagne. Emphasizing leadership from God, Rev. Dr. Nditemeh charged Mr. Ngum to combat corruption and uphold fairness. Mr. Ngum honored his predecessor Prof. Tih Pius Muffih and outlined his roadmap focusing on resilience, innovation, research, partnerships, and patient care. “There is hope on the horizon,” stated Mr. Ngum. The ceremony featured blessings from various dignitaries and highlighted Mr. Ngum's commitment to leading CBC Health Services to greater heights.

CBC Health Services and NW Conciliator Form Land-mark Partnership for Inclusion

The CBC Health Services and the Public Independent Conciliator for the Northwest signed a historic Memo-

random of Understanding (MoU) on July 19 to promote inclusive development in the region. The partnership, hailed as a milestone by CBC Health Services Director Ngum Samuel, aims to integrate people with disabilities (PWDs) into development projects and prevent discrimination. “This MoU is a testament to our shared commitment to human rights, justice and equity,” Ngum stated. The collaboration sets a new standard for inclusive governance and development practices in Cameroon, with both institutions working to safeguard and uphold the rights of PWDs.

Breaking Barriers, Saving Lives: Dr. Hygin Steve Fonkou Triumphs with Judith Chapman Award 2024
Dr. Hygin Steve Fonkou, a Transfusion Medicine specialist with CBC Health Services, won the Judith Chapman Award from the International Society of Blood Transfusion (ISBT) on June 24 in Spain. Presenting his award to Director of Health Services Mr. Ngum Samuel on July 7, Dr. Fonkou credited the CBC Health Services for their support. “This award is a testament to the unwavering support and opportunities provided by the CBC Health Services,” he stated. Dr. Fonkou has significantly enhanced transfusion services since joining in 2022, marking a milestone with national training on blood transfusion in April 2024.

Strengthening Sexual and Reproductive Health Partnerships

On July 4, 2024, Ms. Naomi Dalmonte, UNFPA Deputy Representative for Cameroon, visited CBC Health Services to discuss and reinforce partnerships in sexual and reproductive health. Welcomed by Mr. Ngum Samuel and his team, the visit included a tour of Nkwen Baptist Hospital’s maternity wards. “We can meet the needs of people in hard-to-reach communities, thanks to our partnership with UNFPA,” emphasized Mr. Ngum. Ms. Dalmonte announced new Canadian funding to support the Northwest and Southwest regions. The visit highlighted the successful collaboration between UNFPA and CBC Health Services.

New Director of CBC Health Services Begins Institutional Visits

Following his induction on July 27, Mr. Ngum Samuel, the new Director of Health Services, com-

menced his first tour of CBC Health Services institutions. From August 10-17, he visited various facilities, accompanied by Health Board Chair Prof. Judith Torimiro and Vice Chair Prof. Helen Kimbi. Emphasizing system strengthening, stewardship, resilience, and innovation, Mr. Ngum stressed, “There will be no major expansion but a focus on strengthening the existing system.” The tour highlighted key projects and challenges, with the DHS urging staff to maintain high performance standards and accountability. Prof. Torimiro expressed, “Together, we shall identify areas affected by rust and apply the right oil.”

CBCHS Joins CDC Cameroon Celebrates 20 Years of Public Health Impact

In 2024, the CDC celebrated 20 years of public health impact in Cameroon with a grand event on September 10 at Hilton Hotel, Yaoundé. The U.S. Ambassador to Cameroon, Christopher John Lamora, highlighted CDC's achievements in expanding HIV services, training epidemiologists, and establishing national laboratories. CDC Country Director, Dr. Mohamed Jalloh, lauded efforts in HIV, tuberculosis, and malaria interventions, and the introduction of malaria vaccines together with partners like the CBC Health Services. The CBC Health Services received recognition for its significant public health impact.

Cameroon on Course to Inclusive Development

In 2024, the Minister of Social Affairs, H.E. Mme. Pauline Irene Nguene, reaffirmed Cameroon’s dedication to the rights of persons with disabilities (PWDs) during a meeting from September 18-19 organized by the National Committee for the Rehabilitation and Socio-Economic Reintegration of Persons with Disabilities (CONRHA) in collaboration with the CBC Health Services to launch the Council Excellence in Inclusion Award (CEIA) to promote inclusion.

Babungo Community Promises to Uplift Finkwi Baptist Health Centre

In 2024, the CBC Health Services and the Babungo Community lead by Fon Ndofoa Zofoa III signed an MoU on September 27 to upgrade Finkwi Baptist Health Centre into a full-fledged hospital. The proj-

ect includes constructing a theatre, surgical ward, and Doctor's residence, expected to be completed in 2026. "This project will bring quality healthcare closer to our community," said Fon Ndofoa. The upgraded facility will serve several neighboring communities, reducing the need to travel long distances for medical care.

New Path Charted for CBC Health Services

In November 2024, Mr. Ngum Samuel, Director of CBC Health Services, outlined 12 key themes for continuous quality service delivery during the Leaders meeting in Yaoundé from November 18-19. The themes include sustainability, resilience, quality improvement, patient-centered care, and strong partnerships. "Let us focus on feasible, actionable short-term goals for 2025," Mr. Ngum emphasized. He highlighted achievements in ongoing projects and stressed the importance of aligning planning with operational realities. The session set the stage for future strategic planning and collaboration to advance the CBC Health Services' mission.

BIHS Graduates Pioneer Batch of MPH Students

On November 22, 2024, the Baptist Institute of Health

Sciences (BIHS) at Mbingo Baptist Hospital (MBH) graduated its first batch of Master of Public Health (MPH) students on November 22. The ceremony also celebrated the graduation of 12 specialist doctors from the Pan Africa Academy of Christian Surgeons (PAACS) and the Christian Internal Medicine Specialization (CIMS) programs. Director of Health Services, Mr. Ngum Samuel, congratulated the graduates and urged them to be Christ-centered and compassionate in their practice. "Let your hands be instruments of healing and your heart be instruments of compassion," advised Dr. Sunday David, CIMS Director.

BSPH Mutengene: From Idea to Product

In 2024, the Th Baptist School of Public Health (BSPH)-Rehabilitation Training Center for Excellence (RTCE) in Mutengene in Mutengene graduated its fifth batch of 73 students on December 14. The ceremony, themed "Empowering Communities in Affordable Healthcare: Changing Lives," was the first at the school's permanent site, funded by AFAS through the Liliane Foundation. Director of Health Services, Mr. Ngum Samuel, praised the visionaries behind the school and charged graduates to be good ambassadors. The event included

the announcement of five new programs set to begin in the 2025/2026 academic year.

CBC Drivers Challenged to Promote Virtues of the Organization

On December 20, 2024, CBC drivers were urged to uphold the institution's values of honesty, cleanliness, respect, accountability, and good management during their conference. Director of Health Services, Mr. Ngum Samuel, emphasized the importance of drivers being ambassadors for CBC Health Services. The conference included presentations on motor trip ticket rates, conflict management, safety, and the impact of alcohol and sex on driving performance. Drivers brainstormed on improving their work life and continuous quality service provision.

Management Committee Applauds LAP Administration for Resilience

The Life Abundant Primary Healthcare (LAP) program staff were commended for their resilience during the annual LAP Committee meeting on December 19 in Bamenda. The outgoing chairman, Mr. Kangong Joce, called for fruitful deliberations, welcoming new members including Mr. Walter Grob. Director of Health Services, Mr. Ngum Samuel, praised LAP's focus on primary healthcare and encouraged innovative solutions to challenges. "There is no Universal Health Coverage without primary healthcare," he remarked. The meeting concluded with Mr. Nji Richard Nkeh being nominated as the new chairman, and the committee resolved to meet annually in October.
